

NACR Carrier Services Offerings

Now it's possible to optimize carrier services, reduce costs and improve quality of service.

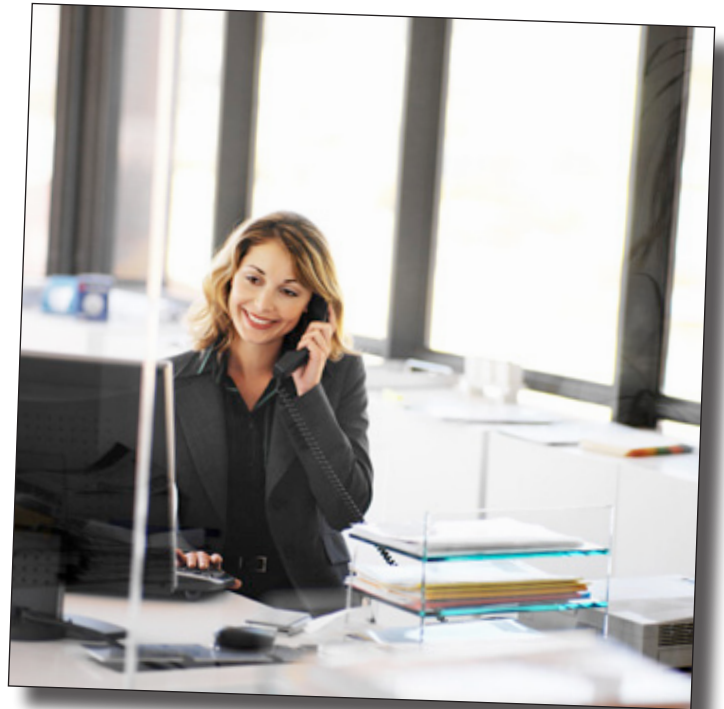

Many companies don't know that they are overpaying for local, long distance and network services. Let NACR Carrier Services experts show you the savings.

Let NACR be Your Single-Point-of-Contact for Assisting with:

- Carrier Neutral Solutions
- Network Savings
- Proven Carrier Relationships
- Business and Technology Strategies
- Professional Analysis
- Business Continuity/ Disaster Recovery

NACR Carrier Services Offers:

- Telecom Audits
- Local, Long Distance and International Calls
- PRI
- T-1
- MPLS
- SIP
- Hosted and Managed Services

Provisioning and Project Management

NACR certified project managers and provisioning coordinators are assigned to every network upgrade migration. Our team has the knowledge and experience in overseeing every aspect of a carrier deployment. A single-point-of-contact allows you to get the most accurate updates and relieves your team of the hassle of dealing with multiple vendors. Whether an organization is implementing a simple voice change, or a complex multi-location migration, our project managers have the ability to fully manage the solution end-to-end.

NACR Carrier Services Offerings

Are you ready to benefit from NACR Carrier Services offerings?

Simplicity is our goal! Savings is your reward! You simply provide existing telephone bills, and current carrier contract expiration dates. NACR has been providing solutions and services to businesses nationally since 1993. You'll appreciate our experience as we help enhance your network capabilities with industry-leading communications solutions, design, implementation, ongoing maintenance and support. We offer solutions from Avaya and Nortel and maintain multi-vendor networks from Avaya, Cisco, Nortel and Microsoft to name a few.

Partnerships Make it Possible

NACR partners with both global and local providers to offer the best programs and prices for our clients.
